PROFESSIONAL SUMMARY

A highly dedicated and focused Registered General Nurse with 11years experience of providing standard care to clients within the hospital setting, the Municipality and beyond. I have positive attitude and able to give encouragement and reassuring care to low and high risks clients and their families throughout arrival to discharge. I support clients both physically and mentally through efficient use of material resources, supplies and drugs. Also helping colleagues at the periphery to address health issues. Work in a busy combined female and Male Medical Wards and supported the facility to implement some activities in the action plan.
