PROFESSIONAL QUALIFICATION

Registered Midwife

PROFESSIONAL PROFILE

A diligent NMC registered midwife with special skills and knowledge in the provision of exemplary care to maintain the health, safety, and development of patients with complex care needs. With extensive facts, information, and skills acquired through experience and education from health care services in the delivery of individual care plans. To show good leadership qualities with the capability to conduct patient assessments, supervise the provision of safe and sympathetic care and evaluate care effectiveness. Act with humility and the best interest of patients while ensuring trust policies of Nurses and Midwifery Council [NMC] guidelines to actively encourage and support the progress of effective wards and the delivery of operational excellence.
