

## Introduction/Motivation

A dedicated and compassionate nurse, nominated for the Prof Ayodele Akiwumi Outstanding Nursing/Midwifery Award. I have always been driven by the passion to deliver exceptional patient care and make a meaningful impact in the people I serve. My motivation stems from a deep commitment to inspire and mentor future generations while fostering a culture of excellence and collaboration within the healthcare team through policy formulation and advocacy. I am humbled to be given the opportunity to highlight the activities and projects I have been carrying out in the facility and community I serve. I strive to continuously learn and grow, embracing challenges as opportunities. I am here for the experience.

## Training, Mentoring & Capacity Building

- Coordinating all training activities in the Hospital.
- Providing Mentorship and guidance for Students on clinicals.
- Rotation for newly posted staff before they are assigned substantive wards.

## Innovation: Life Saving Drugs

## Quality Improvement Project

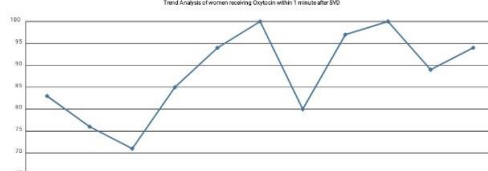

Threat of maternal and peri-natal deaths

We aim to increase oxytocin given to women within 1 minute after SVD from 84% to 95%, starting from June to November 2024

POCQI - Point of Care Quality Improvement

RESULTS from the Implementation of Change Ideas (Run Chart):

Janga Hospital Maternal Fishbone

## Policy, Advocacy, Stakeholder Engagements

Drafting of Staff welfare constitution and Emergency preparedness plan/ward policy. Attending workshops and forums

Leadership, Nursmid Documentation Training by Director of Nursing Services GHS

## Conclusion

- Through my journey, I have witnessed the profound impact that dedicated and evidence based nursing can have on patients, families and healthcare teams.
- Empowerment through education and advocacy enhances patient outcomes.
