Registered Nurse with a total of 5 years' experience in various settings. My career started in here in Ghana where after completing 3 years of nursing education and training in the Nursing And Midwifery Training college Sekondi in 2016 I underwent a mandatory 1 year nursing Rotation in 2017 where I worked in all departments of Ga south municipal hospital unit after unit ie; medical unit, surgical unit, accident and emergency unit, obstetrics and gynecology unit, Reproductive and child health unit, maternal and labour unit, psychiatry unit, child welfare clinic, Antenatal and postnatal, and theatre. After I was posted to work permanently Takoradi Hospital's pediatric ward, where I managed both medical and surgical paediatric conditions for 1 year. I was then transferred to my current station where I double as a nurse store keeper, dispensary technician with training received on the job. I have been trained on stock taking and management. I am a good team player, result oriented, ability to work under pressure and a good communicator.
